Hi Chris,

Before we dig too deep with these citations, we wanted to get a better sense of the level of detail you would like. The attached initial draft covers the first two comments...inserted rows below your entries that provide specific locations in the references and some brief summary information.

I think you may want more details/information, but I don't want to spend a lot of time on information that is not helpful (for example in the IMST reference, they present many recommendations – would a list of these be helpful?). Can you take a brief look at the attached and then maybe we can chat early this week? This will give me a better sense of what you are looking for and how you intend to use it so we can subsequently provide you with useful information in the correct context.

Thanks, Amy

Hi Amy,

Unless Jayne indicates otherwise, please provide additional information from the forest roads-related sources referenced in the attached table.

Many thanks!
